Dear NAME OF SERVICE GROUP,

We are calling upon exceptional service organizations to assist us in a vital effort. In the wake of the devastating ongoing HIV/AIDS epidemic, people living in the Limpopo Province of South Africa are living a bare existence with little hope for improvement. Women and children suffer from physical and sexual trauma, impoverished families go hungry and there is little access to education nor hope for their individual betterment. *HFL needs the collaboration of bright, young, socially responsive people to help us make a collective shift in social consciousness.*

Hope for Limpopo, Inc. is an established nonprofit organization whose goals include awareness and empowerment for abuse survivors, education for children and support for the impoverished people of the Limpopo Province of South Africa by providing access to projects, which create self-sustaining opportunities for their advancement. Though HFL is a grassroots organization begun by two teachers and supported by several recognizable public figures, the need is growing exponentially and it is time to bring these goals to a wider audience. *We believe that organizations whose members are focused on global responsibility can effect a crucial transformation in South Africa.*

The HFL website and blogs will give you a better idea of the type of projects we support. www.hopeforlimpopo.org. In addition to fundraising, Hope for Limpopo's needs include: ideas for improving our website, ideas for growing our following, ideas to better use social media for growth of the non-profit, letter writing campaigns to solicit donations, grant writing, fundraising ideas and assistance, management and writing of the blogs and Twitter account, and any other suggestions that your organization deems pertinent. *We are willing to collaborate and/or assist you in a most responsive manner.*

Contact us to become a part of the 'Hope' we bring to the people of Limpopo. Thank You.

Nancy Amanti
